

Manager 2 Leader

According to a recent Gallup study, **one in 2 employees don't leave a company; they leave a manager.**

Leadership is **NOT** about managing money, time, or tasks. **It's about people** and moving the strategic vision of the organization forward.

As your organization grows, so does the need to prepare the next generation of leaders who will drive your organization into the future.

By preparing your managers to lead, the organization can avoid:

- High Turnover
- Dysfunctional Teams
- Disengagement
- Costs of re-hiring

Manager 2 Leader is helping organizations across the country transform today's managers into tomorrow's leaders.

Our process begins by tailoring the content and workshops to best meet the needs of your particular company. Next, participants journey through numerous highly engaging workshops revealing the complexities of leadership, while equipping them with the tools, strategies, and best practices to tackle true leadership roles.
