

Everything DiSC® Workshop

It's all About Communication

Have you ever left a team meeting thinking things went great only to find out later that your message didn't land the way you intended?

So often the content of a communication exchange is missed, lost or rejected based solely on the "delivery."

Everyone has a preferred style of communicating, and by the end of this workshop, participants will have gained a better appreciation for the uniqueness of personal style and how it impacts team effectiveness.

10% of conflict is due to difference of opinion and 90% is due to delivery & tone of voice.

Team Development
